## ***Doing Roof-Restoration Projects the Right Way ... Maximize Deferred Capital Expenditures***

This program focuses on defining opportunities and solutions related to roof restoration projects. Understanding the process and value of extending the service life of your roof as an alternative to a roof replacement.

### **Program Benefits and Objectives:**

This program will show how to manage your roof restoration projects.

- Determine what the requirements are for a "good candidate" for roof restoration.
  - Don't put good money after bad
  - Life Cycle Cost Analysis
- Means, methods and procedures for restoration
  - Built-up Roof Systems (including Modified Bituminous and Multiply Systems)
  - Single-Ply Roof Systems
  - MRA/ Metal Roof Assemblies
- Understand the value of DEFERED CAPITAL EXPENDITURES in managing a Long Range Asset Management Program.

### **Jeffrey L. Brittan, CDT, CSI**
